Company Information

Alphabet Inc. is a leading company in the Internet Content & Information industry. It operates in the Communication Services sector and is headquartered in Cupertino, California.

Stock Tracker

Our Stock Tracker app provides comprehensive financial information at your fingertips. As shown here, users can access detailed company profiles, real-time stock prices, historical performance charts, and key statistics like 52-week highs and lows. The clean, intuitive interface makes tracking investments simple, with customizable time frames from daily to 5-year views. This powerful tool helps investors make informed decisions with just a glance at their mobile device.

Finance tracker

The Finance Tracker module offers essential financial management tools in one intuitive interface. On the left, our Currency Converter feature allows instant conversion between major currencies like EUR, USD, and UAH with real-time exchange rates. The main Finance Tracker screen provides a clean overview of your balance, with income and expenses clearly displayed. Users can easily switch between different financial tools using the convenient navigation bar at the bottom, including Stocks, Finance reports, News, and Account settings. This comprehensive solution helps users monitor their finances and make informed decisions on the go.

News

The News module delivers timely market intelligence directly to users' fingertips. The left screen showcases a clean news feed with sentiment indicators, featuring headlines from trusted financial sources like Benzinga. Users can easily browse multiple stories and access full articles with a single tap. The right screen demonstrates the detailed article view with rich content, market ticker information at the top showing real-time data for SPY, QQQ, and BTC/USD, and intuitive sharing options below. This comprehensive news integration keeps investors informed with the latest market developments, analysis, and financial insights, all within our unified mobile application interface.
